

AMENDMENTS TO THE SPECIFICATION

Applicants respectfully request that the Examiner enter the substitute specification filed May 5, 2008 following substitution into the substitute specification, where indicated below, the following four replacement paragraphs:

(1) Applicants request that the paragraph on p. 7 of the marked-up copy of the substitute specification of May 5, 2008, beginning with line 10 and ending on line 12, be replaced with the following paragraph, marked up to show changes:

~~(4)(3)~~ The interlabial pad according to any one of (1) to ~~(3)(2)~~, ~~wherein said further~~
including a finger insertion restriction portion that is formed by binding two facing
portions of said opposite side face to ~~body~~ each other.

(2) Applicants request that the paragraph beginning on p. 3, l. 16 and ending on p. 4, l. 3 of the marked-up substitute specification of May 5, 2008 be replaced with the following paragraph, marked up to show changes:

The above objects can be ~~attained~~ achieved, according to the present invention, by an interlabial pad ~~comprising: a structure that an interlabial pad that~~ that is fixed in such a way that it contacts the pubic region by using ~~dexterously~~ a ball of a finger ~~having a fineness of perception to check the fixing point[[,]], more specifically~~ Furthermore, a structure ~~that~~ having a finger insertion opening into which a finger can be inserted

while contacting a side of ~~an~~the interlabial pad opposite to the body ~~and a finger insertion opening connected thereto are~~is provided, and a stopper to prevent further insertion of a finger is provided in the finger insertion opening at a position ~~capable of which permits the~~ fixing of an interlabial pad effectively, allowing the pad to be stably and smoothly fixed in the interlabial space~~in order to wear an interlabial pad to the interlabial space with a positional relationship of a finger to an interlabial pad being stable and smoothly fix an interlabial pad to the interlabial space.~~

(3) Applicants request that the paragraph on p. 8, ll. 15-18 of the marked-up copy of the substitute specification of May 5, 2008 be replaced with the following paragraph, marked up to show changes:

~~(5)~~(4) The interlabial pad according to any one of (1) to ~~(3)~~(4), ~~wherein further having~~ a width dimension in ~~said the~~ lateral direction of ~~said the~~ finger insertion cavity that is formed to reduce gradually from ~~said the~~ finger insertion opening to ~~said the~~ finger insertion restriction portion.

(4) Applicants request that the paragraph on p. 9, ll. 5-8 of the marked-up copy of the substitute specification of May 5, 2008 be replaced with the following paragraph, marked up to show changes:

~~(6)~~(5) The interlabial pad according to any one of (1) to ~~(4)~~(5), wherein the interlabial pad has an~~a~~ interval dimension ~~of~~between said finger insertion opening

and the finger insertion restriction portion that is 10% to 80% of the length dimension in the longitudinal direction of said opposite side face ~~to body~~.
